

Q&A

1. Who can use it?

Q1: Who is this program designed for?

This program is designed for parents and primary caregivers of children in Years 7–9, approximately aged 12–15 years.

Q2: Do I need any prior knowledge about online safety or technology?

No. The program is designed for parents with different levels of digital knowledge and experience.

Q3: Do I need to create an account to use it?

You may need to access the program through the study platform. If login details are required, they will be provided by the research team.

2. How to use it?

Q1: What do I need to do during the program?

You will be asked to complete the program sessions and reflect on topics related to children's online safety, privacy, and digital parenting.

Q2: How long does the program take?

The program includes eight sessions and is expected to be completed over several weeks.

Q3: What happens after I finish the program?

You will be invited to complete a post-test survey so the research team can understand changes in parents' awareness, confidence, and communication practices.

3. Account and technical issues

Q1: What should I do if I cannot log in?

Please check that you are using the correct login details. If the problem continues, contact the research team for support.

Q2: What should I do if a page does not open or load properly?

Try refreshing the page, checking your internet connection, or using a different browser or device.

Q3: Can I complete the program on my phone?

Yes, the program should be accessible on most phones, tablets, and computers. For the best experience, a larger screen may be easier to use.

Q4: What if I forget my login information?

Please contact the research team, and they will help you regain access where possible.

4. Privacy and safety

Q1: Will my answers be anonymous?

Yes. Your survey responses will not include identifying information.

Q2: If I provide my email address, will it be linked to my survey answers?

No. Email addresses will be collected separately and will not be linked to survey responses.

Q3: How will my data be stored?

Data will be stored securely on password-protected institutional servers and accessed only by the research team.

Q4: Is the website safe to use?

The program will be delivered through a secure study platform managed by the research team.

5. Contact and support

Q1: Who should I contact if I have questions about the study?

You can contact the research team using the email address provided in the participant information sheet.

Q2: What should I do if I feel uncomfortable during the study?

You may skip any question, stop the survey, or withdraw from the study at any time without consequence.

Q3: Where can I get support if the topic raises concerns?

If the topic raises concerns or you would like additional support, you may contact the following services:

- **Beyond Blue**

Call a counsellor on 1300 22 4636 or use webchat: <https://www.beyondblue.org.au/who-does-it-affect/young-people/helpful-contacts-and-websites>

- **Kids Helpline**

Call a counsellor on 1800 55 1800

- **ReachOut**

Webchat: <https://au.reachout.com/>
